MEMORANDUM FOR THE RECORD

SUBJECT: Pueblo Loss Hearings by the Pike House Armed  
Services Subcommittee

In conversation on Friday, 28 February, it was learned that Chairman Pike feels that Mr. Helms has not been "factual" in statements attributed to him concerning the Pueblo incident. The inference being that the Director's membership on committees such as the 303 Committee and his position as Director of Central Intelligence would indicate involvement in some degree in operational missions such as the Pueblo.
